

DB Homework 3

You are asked to:

1. Convert the ER Model in HW1 to a database which contains a set of tables.
2. Normalize the database in Q1 to satisfy BCNF or 3NF constraints.

Submit your report to E3 before **2016/5/24**. Your report should consist of:

- a) The tables before normalization,
- b) Normalization process, and
- c) The tables after normalization
